

## Why do some schools show a progression rate to third level of over 100%?

Because the figures include PLC students, first-year repeats and mature students who sat the Leaving Cert prior to 2017. Only 78% of this year's Irish-based college registrations are of students who sat the Leaving in June 2017. The third level progression percentage in the table shows the total number of 2017 college registrations from each school

(including people who sat the Leaving Cert prior to 2017) as a proportion of the number of 2017 Leaving Certs at the school. Numbers are not available on progression rates for LC 2017 only.
